^{**}Continuing education (CE) requirements must be completed within the past five (5) years prior to readmission application. Once readmitted, he or she will be placed on a CE cycle beginning January 1 of the following year of readmission to membership. All readmitted Practicing Designated Members return to a 100-hour Required CE status. Those applying for Non-Practicing member status will be reviewed by the national Admissions & Designation Qualifications Committee (ADQC) on a case-by-case basis and may or may not be subject to CE requirements upon readmission. Those moving from Non-Practicing member status back to a Practicing member status will be subject to CE requirements under appropriate scenario, either #1 or #2.

[†]For readmission, members may choose not to complete 100 hours, but must use certification statement stating that member is not “continuing education completed.” “Continuing education completed” means the status a Designated Member achieves by satisfying the Uniform Standards of Professional Appraisal Practice (USPAP), Business Practices and Ethics (BP&E), the Appraisal Curriculum Overview (ACO) and 100-Hour requirements set forth in [Regulation No. 10: Continuing Education](#).

In addition to the requirements demonstrated here, one must also submit a completed application. Once readmitted, dues will be prorated for the remainder of the year and an invoice will be sent.
